ABOUT THIS MAP

This Visual Arts Map attempts to chart various components, participants and dynamics of the larger visual arts ecosystem in Malaysia. It provides a listing of organisations offering funding and support for visual arts, information resources and artist associations, as well as a map and directory of Klang Valley-based visual arts platforms, tertiary institutions offering visual arts programmes and specialist research libraries.

Users should note that art market platforms (e.g., auctions, art fairs, private galleries with exhibition programming and representing artists, as well as showroom galleries that operate on walk-in sales) are differentiated from general platforms for the visual arts (e.g., public and corporate galleries, artist-run spaces, venues for hire) to indicate the different economies and audiences that coexist and sometimes cross over in the ecosystem. It should also be noted that most funding bodies and certain general platforms are broad in their reach, with the visual arts being just one of various arts disciplines they support.

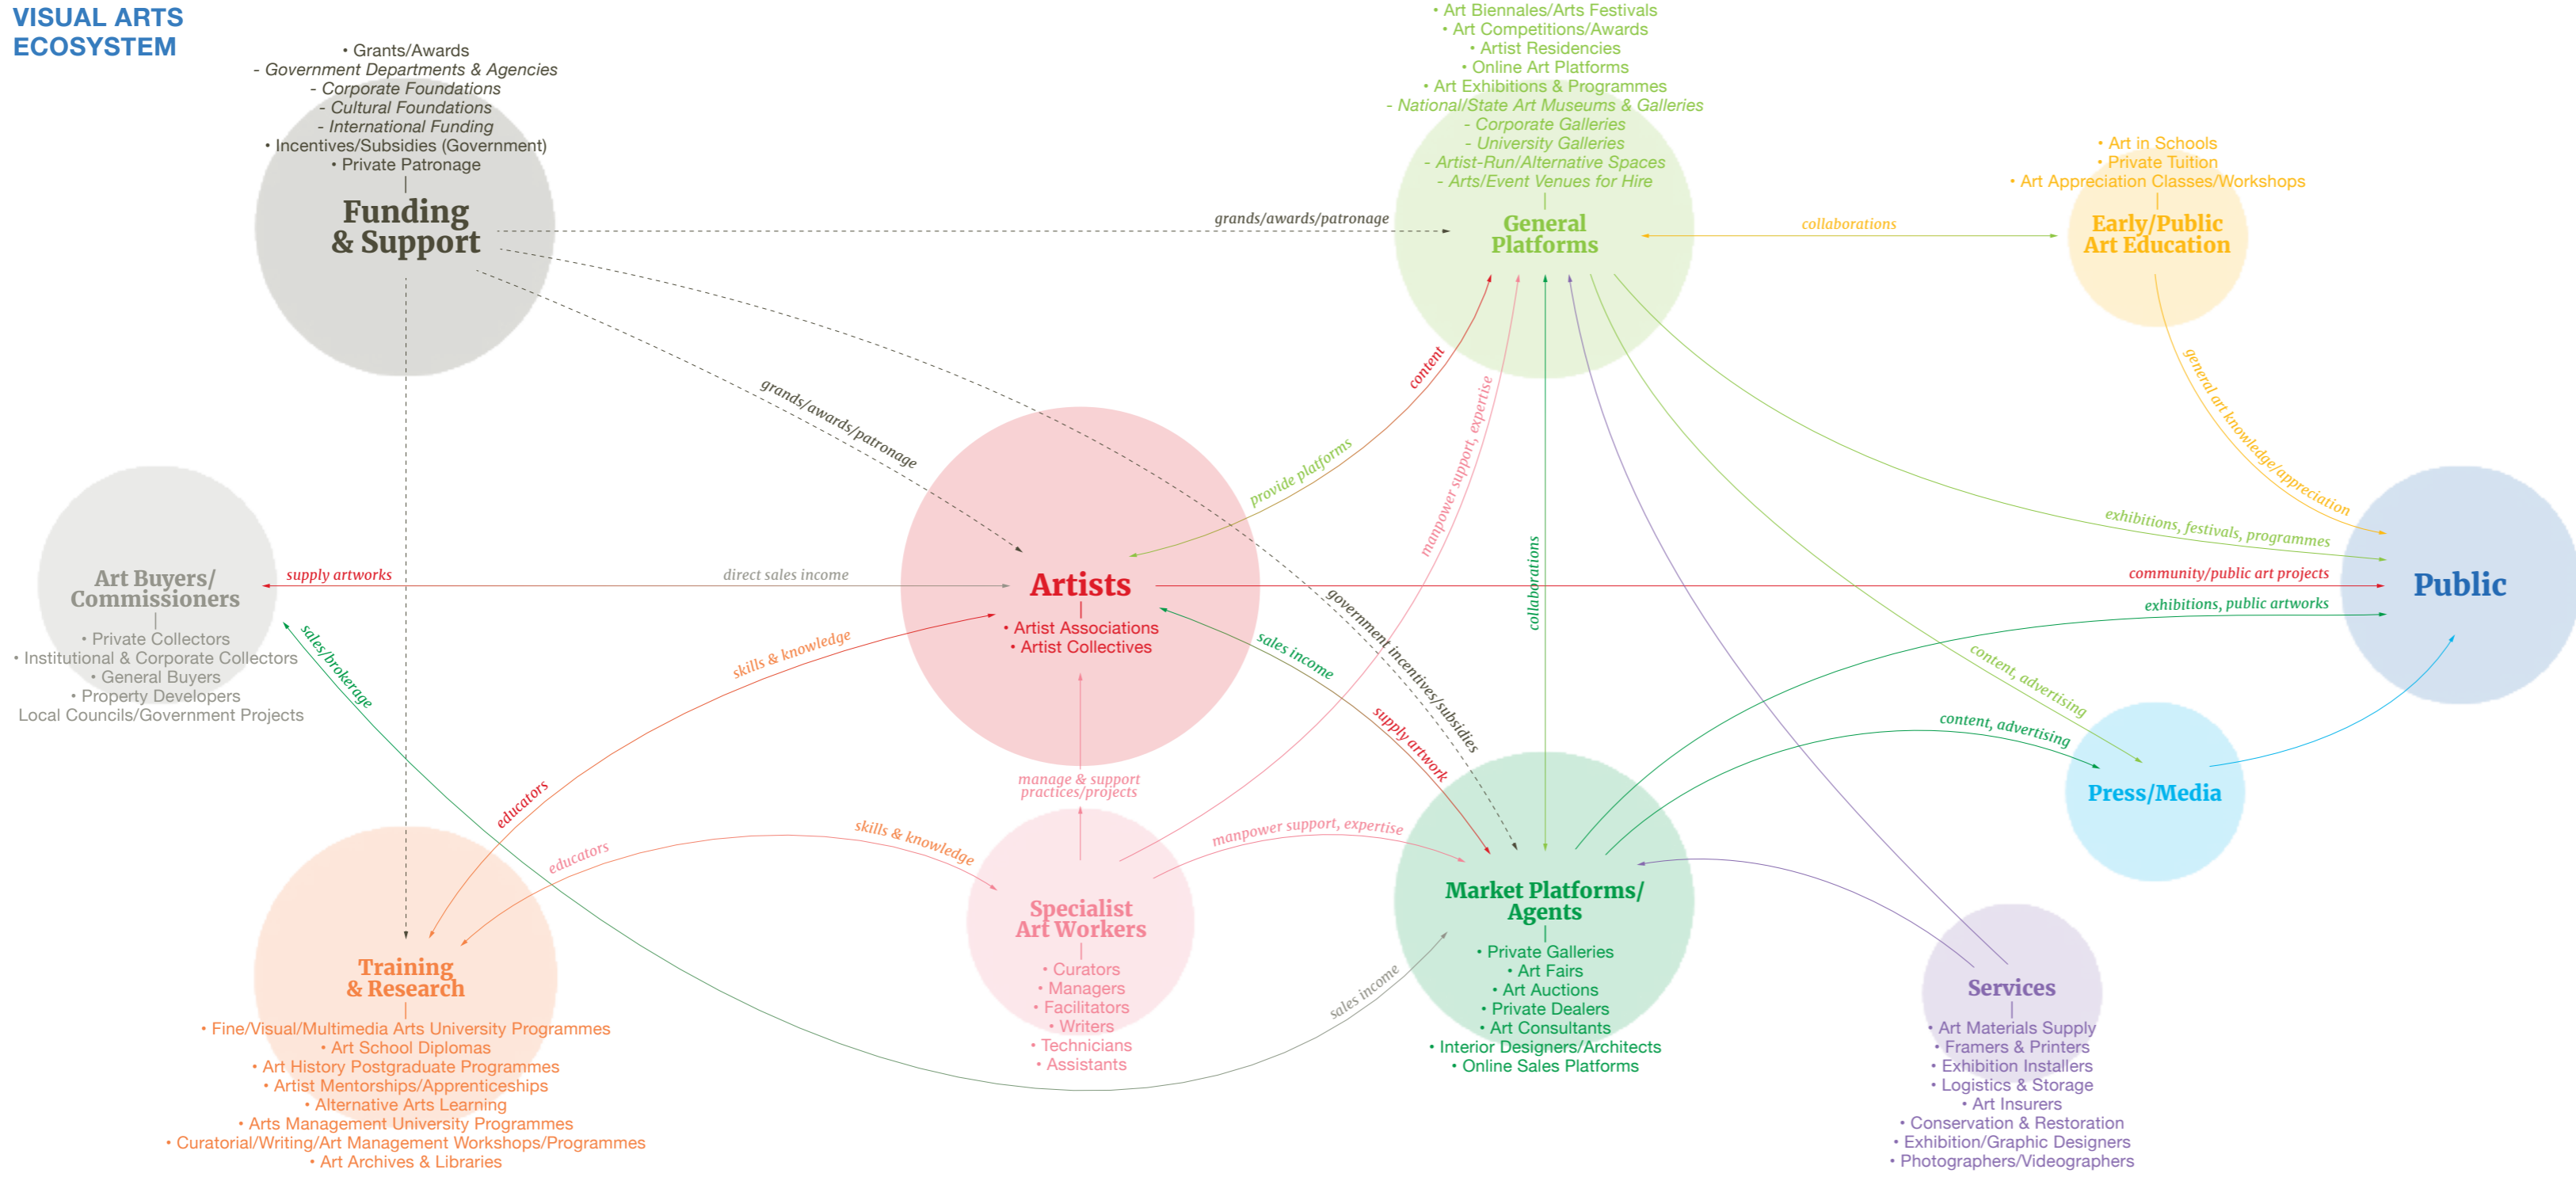

ECOSYSTEM MAPPING OVERVIEW

Under its strategic pillar to 'Empower the Communities' through increasing opportunities for Malaysian artists and cultural professionals, CENDANA has worked with My Performing Arts Agency, RogueArt and Dr. Adil Johan of the Institute of Ethnic Studies to publish Ecosystem Mapping Guides that provide listings of arts organisations, venues, institutions, networks and platforms as well as local and international funding resources for different cultural sectors.

The Ecosystem Mapping effort is part of a long-term series of information guides initiated by CENDANA for public and private stakeholders, practitioners, policymakers, researchers, artists and cultural workers encompassing various artistic and cultural disciplines.
